OVERVIEW

Learning a foreign language is in itself a passport for you to develop your capabilities. It is a leveller that brings people from different backgrounds on the same platform for their personal or professional development. Mastering a foreign language opens more career opportunities and at the same time increases your marketable skills locally and internationally.

We believe that one cannot learn a language without having an insight of the way of living of the native hence, our language classes are a fusion of cultures, traditions rather than just sticking to syntax, verbs, pronunciation and grammar.

Polytechnics Mauritius is proposing this programme in joint collaboration with Eurasia Institute for International Education that prepares you for a Telc Examination. Telc language tests are recognised by all major European countries.

Whether you are from the medical field, financial sector, engineering, tourism and hospitality or cruise industry, this programme will help you in your professional development, unlock career opportunities abroad or simply facilitate communication with foreign clients. This course will also tick the box for those who wish to study in German speaking Universities.

WHO IS IT FOR?
